Dr. MANEETA KAHLON
Principal
G.N.Kh. College for Women
Chakhan Campus, Model Town,
Ludhiana

Principal

Solid waste: For the collection of solid waste, a number of dustbins have been kept in college campus including corridors, classrooms, laboratories, washrooms and staffrooms. In an attempt to manage the waste and reduce the carbon footprint, a composting unit was formed. This composting unit utilizes the waste generated in the college premises by converting it into fertilizer that will be used for fertilizing the plants and nursery. Knowledge was imparted to the workers of canteen to compost the peels of fruit and vegetables in the pits so that this waste can be converted into manure which can further be used in plantation. Not only this, material not in use was cleared out of the college store in the form of rods and wires which was planned to be used for plantation and green area of the college. Apart from this, the junk stationery like, paper, folders, cartons, waste plastic and glass bottles were collected for reuse and recycling.

The students of the college were sensitized to reuse the waste through BEST OUT OF WASTE activity. The students of different streams showcased their talent by making creative and unique items from waste.

An Awareness and Cleanliness Drive was done on Single Use of Plastic / No Plastic. The students of different streams showcased their talent by making creative and unique posters and slogans for the same.

Under the aegis of Internal Quality Assurance Cell (IQAC) of the college, the Swachhta Action Plan (SAP) Committee in collaboration with the Department of Fine Arts observed World Soil Day on the college campus. This day is observed on December 5 to raise awareness about the importance of soil, healthy ecosystems, and human well-being. A number of students from various streams of the college participated in the clay modelling activity and showcased their creativity.

Old newspapers were sold after few months.

E waste management: As a part of "Roshni", the Annual Diwali programme of the college, the Department of Computer Science and Applications in collaboration with the Internal Quality Assurance Cell (IQAC) conducted an awareness drive to sensitize students around the rise of e-waste and the need for its responsible collection, disposal, and recycling.

Apart from this, the waste Management Team of Swacchta Action Plan (SAP) committee of the college collaborated with Cosmos Recycling Unit, Ludhiana for proper disposal of e-waste. Non-functional computer systems and other equipment that had reached the end-of-life were sent for recycling and safe disposal. Certificates and receipts were provided by the organization, to the college for recycling and disposal of e waste.

Waste recycling: To observe International Volunteer Day, the student volunteers of the Waste Management Team of Swacchta Action Plan (SAP) committee of the college pledged to promote the usage of bioenzymes instead of pesticides to increase the durability of soil and to further ensure sustainable development.

Not only this, material not in use was cleared out of the college store in the form of rods and wires which was planned to be used for plantation and green area of the college. Apart from this, the junk stationery like, paper, folders, cartons, waste plastic and glass bottles were collected for reuse and recycling.

The students of the college were sensitized to reuse the waste through BEST OUT OF WASTE activity. The students of different streams showcased their talent by making creative and unique items from waste.

Biomedical waste management: Bio waste generated after the vaccination camp held on 21st October 2021 was managed successfully.

Certificates received for recycling and disposal of E waste
