HOUSE OF READERS

Introduction

Library is the heart and soul of every educational institute. The Library has a wide range of text books/reference books/e-literature in each subject. It is an updated library & every year the books are updated according to the syllabus provided by the University. There are also national & international journal, books for competitive exam & free internet facility for students. Leading festivals and book exhibitions are arranged under the initiative of the library. Our library is rich with reference books and textbooks, as well as it has subscription of many educational journals, periodicals and magazines. Daily newspapers are available to students for reading.

It is fully computerised. Book bank facility is available for students. It has separate section for PG students.

“One Book, One Pen, One Child and One Teacher can change the world.”

House of Reader/Book club, come into existence in the year 2007, when we started to enroll students with the objective to read more books. In the year 2003, we constitute Library Committee of students and enroll two students from each class. In their free periods, they usually were in the library, communicating with the library staff about the books and working of the library. Further, when they were supporting the library staff and, they become aware of so many books of their interest.

In this way their interest towards Biographies, Autobiographies and other books was increased. From-this concept, we create book club, to enroll maximum students from all classes. In year 2016, we name it “House of Readers”

In this house various types of activities are performed by students. They read books, wrote their reviews. We invite distinguished personalities from various fields to interact with students.
