About the Club

The Eco-Club is a team of students and teachers dedicated to environmental conservation. Their efforts focus on protecting nature, minimizing pollution, reducing plastic use, planting trees, and conserving water. The club uses innovative approaches to raise awareness among students about maintaining a clean and green environment. The Eco-Club collaborates with the Biodiversity Cell, NCC, Red Ribbon Club and NSS Unit to enhance the campus's green initiatives and promote sustainable activities.

Focus:

- To foster an eco-friendly environment within the college.
- To align with and support government initiatives addressing environmental concerns.
- To cultivate a group of young individuals who are environmentally conscious and dedicated to nurturing nature in their own unique ways.
- To encourage sustainable and eco-friendly practices across the college campus.
- To raise awareness within the local community about the importance of biodiversity conservation.

MISSION

- ❁ Protecting nature by safeguarding forests, skies, and oceans.
- ❁ Cultivating seeds and nurturing growth to make our green dreams a reality.
- ❁ Standing united like a family, preserving the environment we cherish.
- ❁ Building a world where animals can roam freely and safely.
- ❁ Embarking on journeys to protect and care for the land.

OBJECTIVES

- ❁ Inspiring students to plant more trees on campus, at home, and in their communities to promote a greener environment.
- ❁ Organizing clean-up drives and activities to maintain a tidy and eco-friendly campus as part of the Swachhta Mission.
- ❁ Educating students about critical environmental issues such as climate change, global warming, pollution, and laws that protect nature.
- ❁ Encouraging the community to conserve natural resources, manage water efficiently, collect rainwater, and dispose of waste responsibly.
- ❁ Raising awareness among students about reducing plastic and polythene use, and the importance of adopting the principles of reduce, reuse, and recycle.

ACTIVITIES

World Wildlife Day

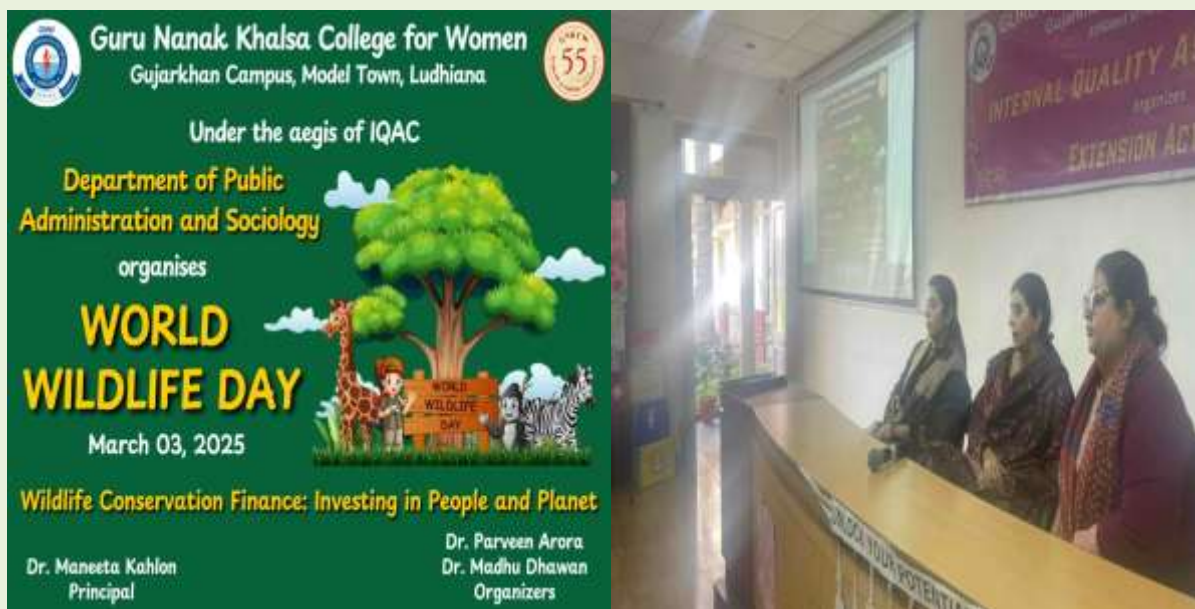

05 March, 2025

Under the aegis of IQAC , Department of Public Administration and Department of Sociology observed **World Wildlife Day** with great enthusiasm at our college, bringing together students, faculty to honor the incredible diversity of our planet's fauna and flora.

The event kicked off with an engaging informational session on the critical need for innovative financial solutions to support conservation projects while recognizing the indispensable role of wildlife in sustaining ecosystems, economies, and human well-being.

Principal Dr. Maneeta Kahlon encouraged the students to participate in the activities which save and protect the wildlife from degradation.

World Sparrow Day

20 March, 2025

This day was observed under the guidance of Punjab State Council for Science and Technology as the state implementing Agency and the Ministry of Environment, Forest and Climate Change as the supporting Agency for the Environment Education Programme. Celebrated annually on March 20, World Sparrow Day raises awareness about the declining population of sparrows and the urgent need for conservation. These small yet vital birds, once commonly found in urban backyards and green spaces, have seen a significant decline over the past two decades.

The theme for 2025, "A Tribute to Nature's Tiny Messengers," emphasized the crucial role sparrows play in maintaining ecological balance and encouraged conservation efforts.

On this occasion, Madam **Principal Dr. Maneeta Kahlon** engaged in a meaningful discussion with students, highlighting the importance of biodiversity and the need to take proactive steps to protect these tiny yet essential creatures.
